PROJECTS

Salon Management System

Salon LAARO - https://github.com/chathu-02/Salon-Management-System.git

- Designed and developed a full-stack web application to automate salon bookings and service management
- Implemented secure user authentication and a real-time booking dashboard using React.js and Node.js

Personal Task Manager

TO-DO APP- https://github.com/chathu-02/Personal-WellnessApp.git

- Developed a native Android application using Kotlin to streamline daily task management
- Focused on providing a seamless user experience with a clean, intuitive UI built in Android Studio

Built a scalable music platform

TunKart - https://github.com/chathu-02/Online-Music-Store.git

- Built a scalable music platform using Java and MySQL, adhering strictly to the MVC architecture

Recruitment-of-Company-System

Recruitment Company -

- Built a dynamic website to connect job seekers with employers using HTML, CSS, JS, PHP, and MySQL

e- Commerce Web application

Aura Gem Handcraft jewelry- https://github.com/chathu-02/e-commerce-website.git

- Developed a full-stack e-commerce platform specifically for a jewelry business using **React.js, Node.js, Express.js, and MongoDB**.
- Designed a user-friendly and elegant interface using **Figma** and implemented it with **Tailwind CSS** for a premium look and feel.
- Building an **Admin Dashboard** to manage product listings (CRUD operations), track orders, and view customer insights.
- Implemented secure user authentication and a responsive shopping cart experience.
- Utilized **Git** for version control and maintained a clean, organized codebase on **GitHub**.

SUMMARY

IT Undergraduate Detail-oriented IT undergraduate proficient in MERN stack, Java, and Kotlin with hands-on experience in full stack web and mobile development. Seeking an internship to deliver user- centric, high-quality code in Web, Mobile, or QA Engineering roles.
